

Environmental Policy

AUTOGLAZE Ltd recognises that its activities have an impact on the environment. In all our activities, working practices and business relationships, we are committed to protecting, conserving and enhancing all aspects of the environment over which we have control or can influence.

We shall ensure compliance with all relevant current and future environmental legislation and regulations. We will also take action to continually improve our environmental performance.

In particular we shall:

- Take environmental considerations into account when selecting our suppliers and contractors.
- Use resources wisely by reducing resource use and reusing or recycling materials wherever possible.
- Improve the efficiency of energy use in our buildings and processes
- Minimise water use in our buildings and processes
- Prevent or minimise the risk of pollution arising from our operations
- Plan and run our transport policy

We will ensure this policy is implemented throughout our operations by:

- Ensuring all our employees understand the environmental impacts of their own jobs.
- Informing all suppliers, contractors and sub-contractors of the requirement to comply with this policy when providing goods and services.
- Periodically reviewing the environmental issues at the highest level within the organisation.
- Reviewing this policy and its effectiveness on an annual basis.

This Policy establishes the framework for establishing our Environmental Targets and Objectives.
